

Purchase and install your water saving fixtures or filtration system

Choose water saving fixtures and filtration systems wisely. Talk to a plumber, retailer or someone you know who has water saving or filtration devices already installed in their home to find out which models have the best performance.

Shop around—there are many different varieties of toilets, showerheads and in-line home filtration systems that you can buy. Depending on what you are looking for the products can range anywhere from \$10.00—\$700.00.

The Town of Fox Creek

Water Conservation and Filtration Rebate Program

780.622.3896
www.foxcreek.ca

How it Works ...

Step 1—Determine your eligibility

Step 2—Take out your existing toilet or showerhead

Step 3 - Buy and install an eligible six-litre (6L) or dual flush toilet (3L/6L) or an acceptable low flow shower head or an in-line home filter.

Step 4 - Provide proof of disposal of your old Toilet:

- Take the old toilet to the Fox Creek Transfer Site and receive a disposal tag to submit with your rebate application.

Step 5 - Send in your application! To receive your rebate make sure you send in:

- A completed application form
- An original sales receipt for new product
- If applicable your disposal tag received from the Fox Creek Transfer Site

Are you eligible for the rebate?

If you meet the criteria below you are eligible for the rebate:

- The Toilet / showerhead replacement or in-line home filter is for a Fox Creek property.
- You are a current Town of Fox Creek water and wastewater utility customer.
- **Your utility account is in good standing**
- You are replacing an old, water guzzling toilet (13 litres or more per flush) or installing a low flow shower head (9 litres per minute or less) or installing a new in-line home filter. New homes, additions, basement development or replacement or existing low flow fixtures are not eligible.
- You correctly completed an application form and sent it in with the original sales receipt and proof of the old toilets disposal if applicable.
- Please note: Tenant applications must obtain permission from their property owner or building manager.

How much money will I get back?

Homeowners in the Town of Fox Creek will be eligible for the following rebates if they meet all of the criteria:

- Up to a \$50.00 rebate for the replacement of an old toilet (13 litres or more) with a 6 litre toilet
- Up to a \$100.00 rebate for the replacement of an old toilet (13 litres or more) with dual flush 3-litre/6-litre toilet)
- Up to a \$10.00 rebate for the installation of a low flow shower head (9 litres per minute or less)
- Up to a \$100.00 rebate for the installation of a in-line home filtration system.

Complete and mail in the rebate application form...

Application form are available for downloading on the Town of Fox Creek website at www.foxcreek.ca or can be picked up at the Town Administration Office.

Make sure you complete all sections of the form and mail in the form along with the original sales receipt detailing the purchase of your water saving or filtering system.

Application will be process on a first come first served basis.

Rebates will be issued as credits to the utility account billing for the address where the fixtures were installed. Depending on the submission date, it may take two utility billing cycles before the credits are seen.

The Town reserves the right to make random inspections of the participating homes. Homeowners will be contacted in advance to schedule a convenient time for us to verify that the declared water saving fixtures have been installed.
