

PUBLIC NOTICE

As part of our 2018 vegetation management program, Millar Western is proposing to apply VisionMAX herbicide (glyphosate) to approximately 5000 hectares of existing cutblocks in the Whitecourt, Fox Creek, Swan Hills and Edson areas, as described below:

TWP	RGE	MER	TWP	RGE	MER
50	11,12	W5M	63	7	W5M
51	11,14	W5M	64	5,6,7	W5M
52	14	W5M	65	5,6,14,15,16	W5M
58	15,16,17,21,22, 25,26	W5M	66	13,14,15,16	W5M
59	14,15,16,17, 22,23,25	W5M	67	08,10,12	W5M
60	12,13,14,15,16,23	W5M	68	08,09,10,11,12, 13	W5M
61	12,14,15,16,18,19	W5M	69	11,12,13	W5M
62	14,15,18,19	W5M			

This treatment, part of our forest renewal program, will temporarily control herbaceous, shrub and deciduous competition, to improve the growth and survival of tree seedlings and saplings. Application is planned to begin on or around August 20, 2018, pending approval from Alberta Agriculture and Forestry, and be completed by September 15, 2018.
