

Census 2019

Your count matters more now than it ever has before.

Why does the Town of Fox Creek need to conduct a Census?

- ➔ Many grants from other levels of government are calculated on a per capita basis. We need an accurate count of our population to maximize those grants.
- ➔ We need to understand population demographics, growth patterns and how the community is changing to plan for municipal services now and long term.
- ➔ A higher census count will aid us in business retention and attraction.

How Do I Complete the Municipal Census?

Filling out your census online is the easiest way. Don't have online access? Head to the local library! Each residential unit in Fox Creek will receive a door hanger with a unique code and website address. Complete it online and you could win the Grand Prize of an Apple iPad or other prizes!

How long will it take to answer the questions?
