

## CHECKSTOP– The Results

Fox Creek RCMP's impaired driving initiative resulted in **14** impaired drivers being taken off the road with Immediate Roadside Sanctions being issued. In addition to the impaired driving sanctions, over **140** traffic tickets and traffic warnings were also issued over the previous four weeks.

Impaired driving continues to be the leading cause of vehicle collisions and presents a significant road safety concern.

Impaired driving carries significant penalties and can include fines, vehicle impound, license suspensions and potential criminal charges.

Thank you to all the community partners that supported the initiative and contributed to making our roads safer.
